DEFIBRILLATORS - Ashover Parish Council has been working in partnership with Ashover Community Medical Centre Ltd., to provide defibrillators around one of the largest parishes in the country. Defibrillation within 3-5 min of collapse can produce survival rates as high as 50-70%. This can be achieved through public access defibrillation and when a bystander uses a nearby AED (Automatic External Defibrillator) to deliver the first shock. Each minute of delay to defibrillation reduces the probability of survival to hospital discharge by 10% so every minute is vital in ensuring that the patient is given every chance of leaving hospital.

Ashover Parish currently has 6 defibrillators sited around the parish:-

- Ashover** - outside the Medical Centre on Milken Lane
 - Alton** - in the red kiosk on Alton Hill
 - Littlemoor** - in the red kiosk opposite the bus shelter
 - Milltown** - on the outside of 'The Miners Arms' public house
 - Uppertown** - outside the Social Centre
 - Kelstedge** - adjacent 'The Kelstedge' public house
- The units can be accessed by a unique code obtained by an emergency call to the 999 service. The defibrillators are fully automatic and are housed in a temperature controlled, lit cabinet. The unit can be used by anyone, as it provides full audible instructions.
