DEFIBRILLATORS - Ashover Parish Council has been working in partnership with Ashover Community Medical Centre Ltd., to provide defibrillators around one of the largest parishes in the country. Defibrillation within 3–5 min of collapse can produce survival rates as high as 50–70%. This can be achieved through public access defibrillation and when a bystander uses a nearby AED (Automatic External Defibrillator) to deliver the first shock. Each minute of delay to defibrillation reduces the probability of survival to hospital discharge by 10% so every minute is vital in ensuring that the patient is given every chance of leaving hospital.

Ashover Parish currently has 5 defibrillators sited around the parish:-

Ashover – outside the Medical Centre on Milken Lane

Alton – in the red kiosk on Alton Hill

Littlemoor – in the red kiosk opposite the bus shelter

Milltown – on the outside of ‘The Miners Arms’ public house

Uppertown – outside the Social Centre

It is anticipated that a further defibrillator will be sited in Kelstedge soon.

The units can be accessed by a unique code obtained by an emergency call to the 999 service. The defibrillators are fully automatic and are housed in a temperature controlled, lit cabinet. The unit can be used by anyone, as it provides full audible instructions.
