

On 25 September 2003, Ashover Parish Council entered into a Minor Maintenance Agreement with Derbyshire County Council to undertake minor works on rights of way. At that time it was stated in the agreement that there were 45.6 miles in total and that equated to a grant of £675 annually for the Parish Council to spend on minor maintenance. Each year the Ashover Parish Council liaises with the Footpaths Group on the paths to be maintained under the grant and this work is undertaken by a local contractor and the cost reclaimed by the Parish Council from Derbyshire County Council.
